LAUNCH OF THE ELECTRICITY LAWYER ACADEMY AND BRIGHT FUTURES PUBLISHING

About Us

Electricity Lawyer Academy is an education technology and knowledge exchange provider committed to equipping the next generation of energy lawyers and regulatory professionals. Our mission is aligned with the global decarbonisation and energy transition agenda, delivering impactful training and research in energy law and regulation.

Our Services

- Executive Training Programs & Short Courses
- Regulatory Roadshows & Study Tours
- Curriculum Development
- Knowledge Exchange Programs
- Capacity Building
- Coaching & Mentoring
- Research, Editing & Proofreading Services
- Online Journal & Book Publishing
- Contract Implementation Tracking & Intelligence Support
- AI-Powered Knowledge Hub (Cloud-Based Library)

Training Courses & Programs

- Climate Law and Sustainability Pathways- Climate Law and Clean Energy Leadership Program
- Introduction to Electricity Law and Regulation in Africa
- Understanding Power Purchase Agreements (PPAs)
- Clean Technology for Lawyers
- Electricity Market Design Frameworks
- Legal and Regulatory Design for Green Hydrogen Production
- Sustainable Contracting, etc.
- Bespoke/Customised Training Programs

Our Unique Offering

- Affordable, Practical, and Scalable Programs
- Online and Offline Self-Paced Learning
- Expert Insights, Coaching, and Mentoring
- Tailored Career Advisory
- AI-Enabled Contract Implementation Tracking Tools
- 24/7 Access to Our Knowledge Hub

Our Team

Our team of seasoned trainers and facilitators bring decades of cross-disciplinary experience across leading global energy markets. We bridge academia, legal practice, regulatory framework development and energy policy, to deliver high-impact learning.

Launch of Bright Futures Publishing to Promote STEM

PRESS RELEASE

November 2025

Electricity Lawyer Academy Launches Bright Futures Publishing to Inspire STEM Literacy in Children

The Electricity Lawyer Academy today announced the official launch of Bright Futures Publishing, a children's book imprint dedicated to inspiring young minds through science, technology, engineering, and storytelling (STEM).

Bright Futures Publishing aims to bridge the gap between learning and imagination; empowering children to explore innovation, sustainability, and problem-solving through relatable, beautifully illustrated stories.

"Our goal is to tell stories that spark imagination and empower children to believe they can build and power the future," said Dr. Ivie Ehanmo, Global Academy Director of the Electricity Lawyer Academy. **"Through Bright Futures, we hope to connect the world of clean energy and innovation with storytelling that excites the next generation."**

The imprint's first release, **The Boy Who Touched the Sun**, is now available to order on Amazon. The story celebrates curiosity, courage, and the transformative power of knowledge - encouraging children to see science as a gateway to creativity and change.

About Electricity Lawyer Academy

The Electricity Lawyer Academy is a global knowledge and training platform bridging law, policy, and innovation in the clean energy transition. Through professional training, mentoring, and certification programs, the Academy equips future energy leaders with the skills to shape sustainable energy futures.

About Bright Futures Publishing

Bright Futures Publishing, proudly managed by the Electricity Lawyer Academy, is dedicated to inspiring young minds through STEM and storytelling. It publishes children's books that highlight creativity, problem-solving, and sustainability, helping every child discover the power of imagination.

REPORTS/PRODUCTS AND TOOLS

Six (5) reports/products and tools were released by Electricity Lawyer in 2025.

These included;

Electricity Lawyer Energy Trends and Opportunities

SSA Electricity Sector Monitor

Sub-Saharan Africa (SSA) Electricity Sector Monitor

DECEMBER 2025

The legal, regulatory, and policy landscape in Sub-Saharan Africa (SSA) has witnessed notable developments in 2025. Electricity Lawyer's (EL) SSA Electricity Sector Monitor presents these developments monthly; in bite-sized form, along with the accompanying source links. This edition of EL's SSA Electricity Sector Monitor highlights regulatory developments in **Kenya, Zimbabwe, and Nigeria**.

electricitylawyer.com

Energy Sector Sustainable Contracting Tips

ENERGY SECTOR SUSTAINABLE CONTRACTING TIPS

Sustainable Contracting Tip for a Build-To-Transfer Agreement

Tip:

A properly drafted Build-To-Transfer Agreement must include the Transfer Clause, as it is a core provision in a Build-To-Transfer Agreement. The Transfer clause defines the conditions, timeline, and mechanism for handing over ownership and control of the asset from the developer to the purchaser. This clause is included to detail the exact procedures for transferring assets, intellectual property (IP), contracts, and infrastructure from the developer to the owner, marking the end of the 'Build' and 'Operate' phases and beginning of full ownership, thereby mitigating risks and ambiguity.

The inclusion of a Transfer clause in a Build-To-Transfer (BTT) agreement is justified by its ability to bridge the gap between private-sector efficiency and public-sector ownership, allowing governments or utilities to acquire high-quality infrastructure without the immediate strain of upfront capital expenditure. The primary advantage of this clause lies in its risk-sharing framework, where the private developer assumes initial construction and financial risks in exchange for a period of operational revenue, while the public entity is guaranteed eventual control of a fully functional asset. Sustainability is embedded through long-term performance standards and sustainability clauses that mandate energy efficiency, waste reduction, and compliance with environmental regulations throughout the project's lifecycle, ensuring the asset remains viable long after the transfer.

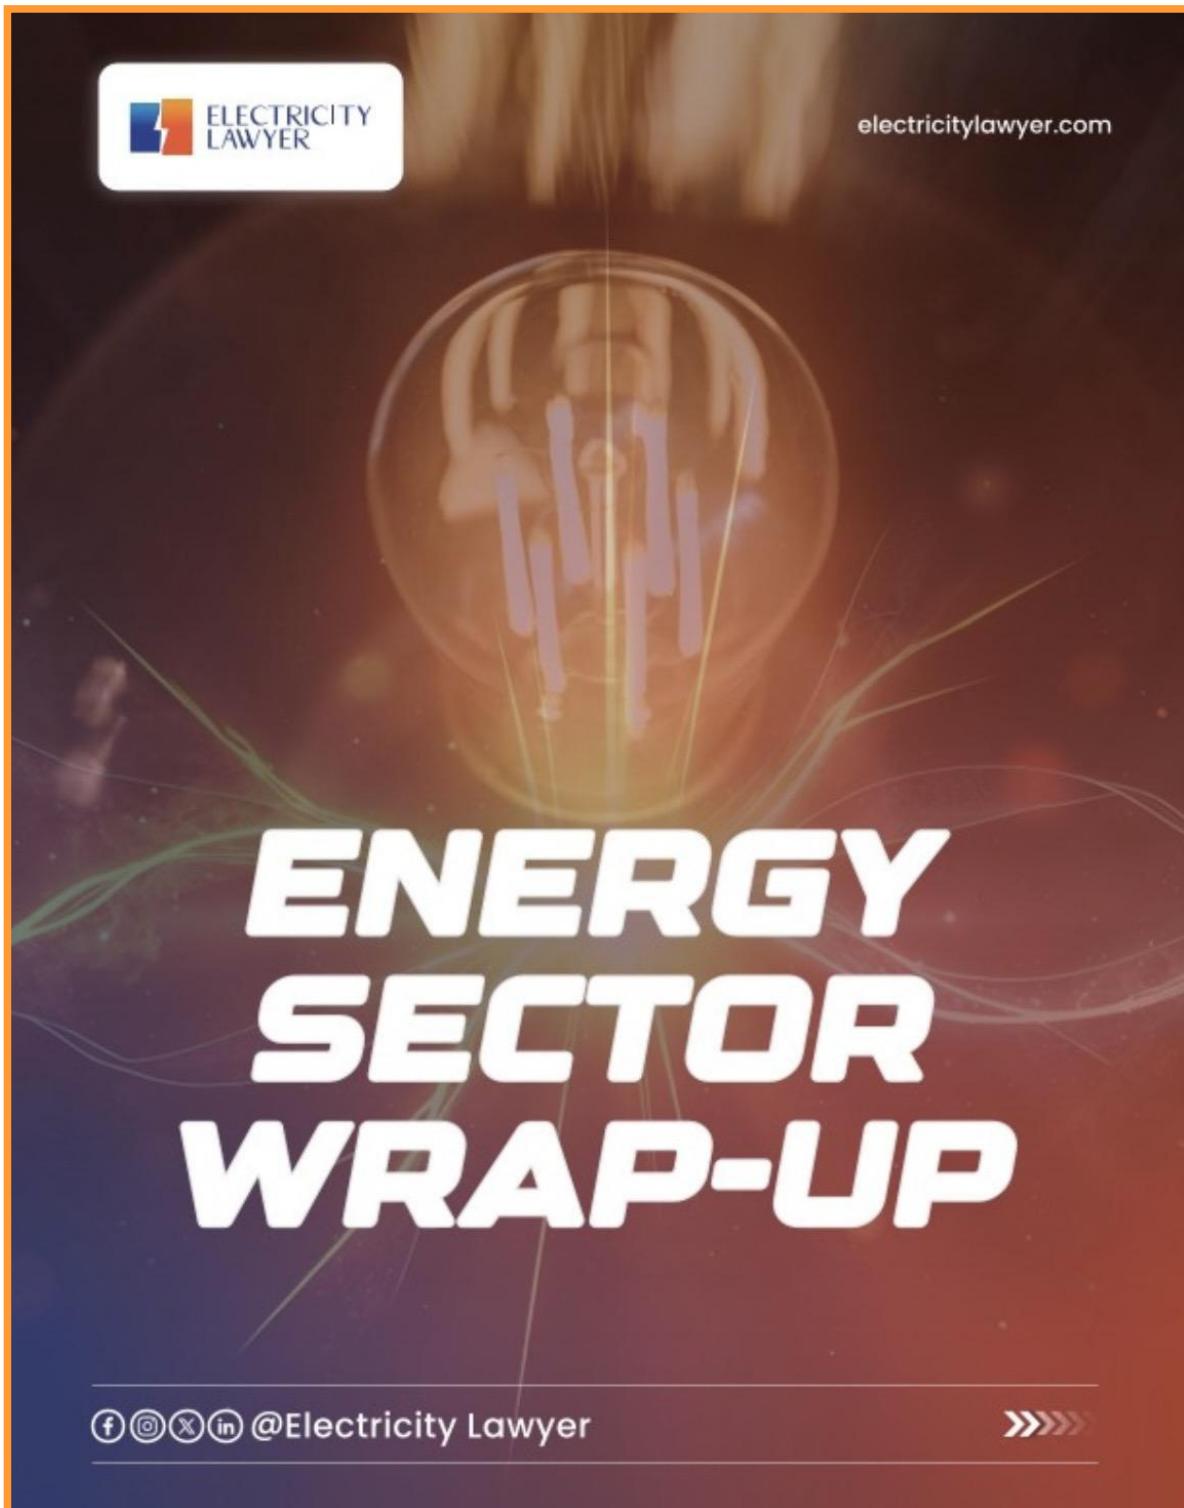

For both parties, the impact is transformative: the developer gains a structured path to recover investments and profit, while the recipient benefits from advanced technology transfer and expert management. Environmentally, the clause encourages the use of sustainable technologies and green practices, as developers are often contractually obligated to return assets that meet modern environmental standards, thereby mitigating long-term ecological footprints.

Alongside the newsletter is the monthly energy trends and opportunities curated for EL clientele and subscribers to empower our audience with energy innovations and trends in the industry that will lead to value-added decisions and allow the audience to take advantage of global opportunities that can increase profits and investment. EL LinkedIn Newsletter was launched in October 2022. Thus far, the LinkedIn Newsletter has been used as a medium for disseminating all published Electrify Insights to subscribers for a wider reach and impact

EVENTS

ELECTRIFY CONVERSATIONS

Electricity Lawyer via the Academy successfully scheduled one (1) edition of Electrify Conversations in 2025.

The webinar titled **“Unpacking the NERC Draft Net Billing Regulation and Its Implications for Nigeria's Electricity Market”** sought to lead the conversation on critical steps in shaping how distributed renewable energy will be integrated into Nigeria's power market.

The graphic is a promotional image for a live webinar. It features the Electricity Lawyer Academy logo at the top left and a 'LIVE WEBINAR •' button at the top right. The title 'Electricity Lawyer Academy' is in the center, followed by a 'Presents' button. The main title 'UNPACKING THE NERC DRAFT NET BILLING REGULATION AND THE IMPLICATIONS FOR NIGERIA'S ELECTRICITY MARKET' is prominently displayed in the center. Below the title, there is a section for 'Speakers' featuring four individuals: Dr. Yusuf Ali, Mrs. Rahila Thomas, Engr. Chibueze Ekeh, and Dr. Ivie Ehanmo. Dr. Ivie Ehanmo is identified as the 'Moderator'. The event details are listed as 'Mon., 20th Oct. 2025 | 12PM (midday) – 2PM' and 'Virtual event (Zoom)'. The bottom of the graphic includes social media icons and the website 'electricitylawyer.com'.

Ivie Ehanmo stands as a distinguished figure in the energy sector, combining academic excellence with extensive practical experience. Currently pursuing her PhD at the **University of Dundee's Centre for Energy, Petroleum and Mineral Law and Policy (CEPMLP)**, her research focuses on legal and regulatory frameworks for scaling up investments in Sub-Saharan African power markets.

This academic pursuit complements her role as the founder of **Electricity Lawyer** (EL), a pioneering data-driven research and legal services platform she established to provide tailored solutions for stakeholders across Africa's power markets. With over 15 years of experience, she has developed a unique approach to integrating law, data analytics, and regulatory expertise to address complex energy sector challenges.

Congrats! Keep growing Fantas

Her professional influence extends across multiple prestigious positions. Currently, she serves as an Advisory Board Member for **ESI Africa**, a Non-Executive Director at **Wavelength IPS**, and an Advisory Board Member at Wayne Energy Consult. As a Research Consultant at **The Energy for Growth Hub**, she is crucial in bridging the gap between cutting-edge research and practical policy implementation in the African energy landscape. Her expertise in the power sector is further demonstrated through her position as a Legal, Regulatory and Compliance Expert with the United Kingdom Nigeria Infrastructure Advisory Facility (**UKNIAF**), where she provides strategic guidance on market structures and electricity market contracting frameworks.

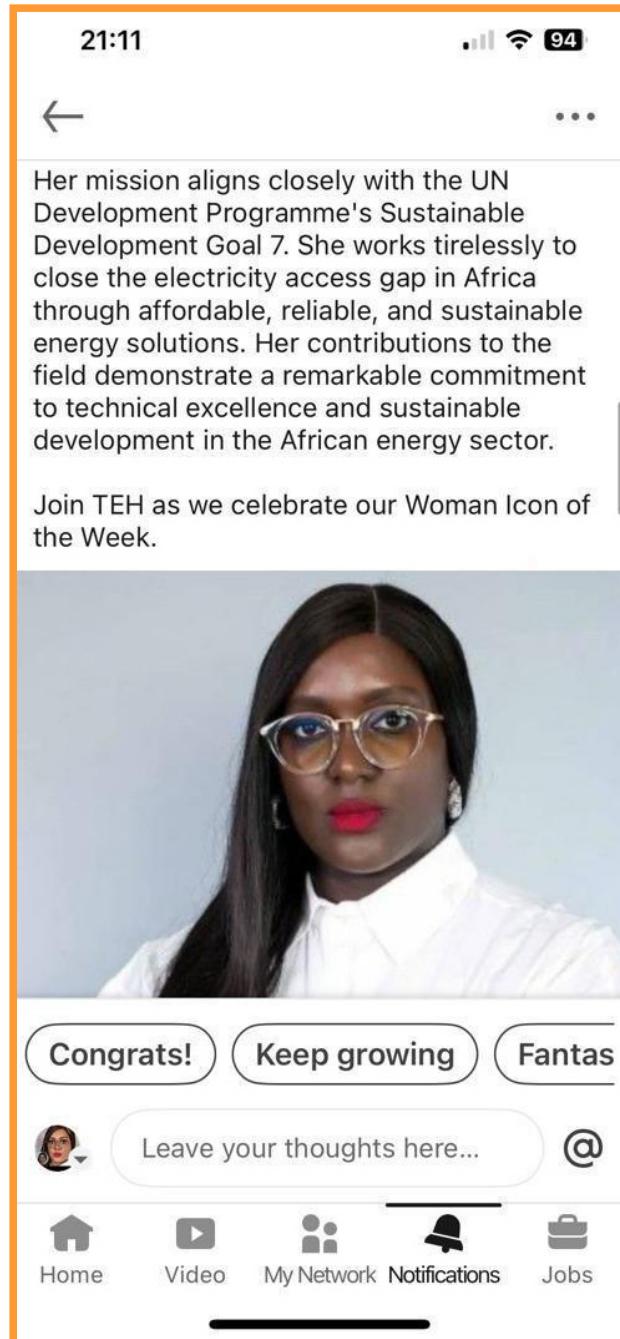

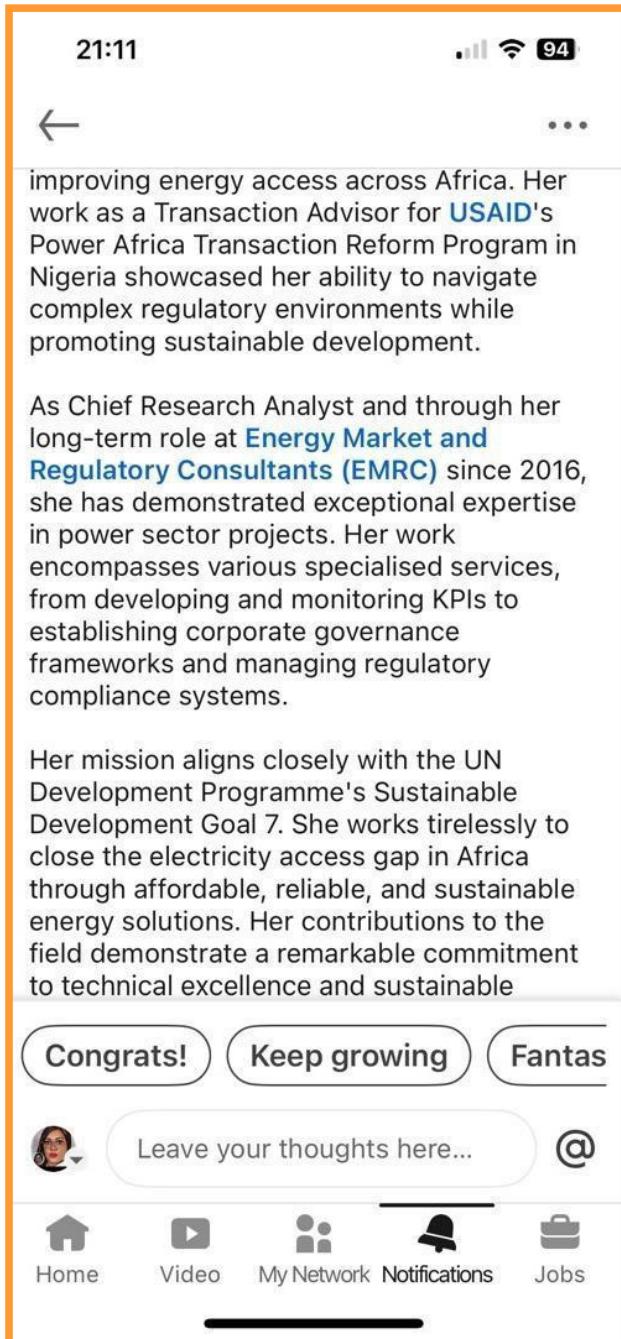

She has significantly contributed to major international development initiatives throughout her career, particularly in strengthening regulatory frameworks and improving energy access across Africa. Her work as a Transaction Advisor for **USAID's**

CONGRATULATIONS!
Ms. Ivie Ehanmo

Ivie Ehanmo is a sustainable energy expert with over 15 years of experience driving clean energy and sustainability initiatives across Europe and Africa. She is the Founder of Electricity Lawyer (EL), an active member of REAN, and serves as an advisor on multiple energy company boards.

Ivie provides technical assistance to global institutions like the World Bank and USAID and has led key projects, including the Hydrogen Diplomacy initiative. Her work focuses on energy policy development, regulatory design, and capacity building, helping governments and businesses advance their clean energy transformation. Passionate about energy access, she is committed to bridging the sustainability gap, especially in underserved communities.

REAN International Women's Day 2025 Feature

Our Founder, Dr Ivie Ehanmo was featured on the International Women's Day 2025 Spotlight of the Renewable Energy Association of Nigeria.

The graphic is a digital card for International Women's Day 2025. It features a large green female gender symbol icon in the center. To the left of the symbol, the text "INTERNATIONAL WOMEN'S DAY" is written in a bold, dark green, sans-serif font. Above the text is the REAN logo, which includes a circular emblem with a sun, wind turbine, and solar panel, surrounded by the text "RENEWABLE ENERGY ASSOCIATION OF NIGERIA (REAN)". Below the main text, a green banner contains the text "Recognizing the vital roles of WOMEN affiliated with REAN'S Secretariat Bureau, Exco & its Advisory Board". To the right of the banner, there is a grid of 12 small portrait photos of women, arranged in three columns and four rows. At the bottom left, the hashtag "#AccelerateAction" is displayed. At the bottom right, there are social media icons for Instagram, Facebook, Twitter, and LinkedIn, followed by the text "REANigeriaofficial" and the website "www.rean.org.ng".

Abia State Electricity Law and Advisory Council on Electricity Appointment

Our Founder, in a landmark achievement, was part of the team that contributed to the drafting of the Abia State Electricity Law.

Contribution to the recently enacted Abia State Electricity Law

Our Founder (Ivie Ehanmo) is pleased to have participated and contributed to the design and drafting of the recently enacted Abia State Electricity Law, as part of the process of the design of the Abia State Electricity Market. On Monday, 17th March 2025, His Excellency, Dr. Alex Chioma Otti (OFR), the Executive Governor of Abia State signed into law, the Abia State Electricity Law. This marks a key milestone in the process of establishing a comprehensive legal and institutional framework for the seamless facilitation of investments and innovation in the Abia State Electricity Market. Congratulations to Abia State in taking strides to increase access to reliable and sustainable energy in line with SDG7.

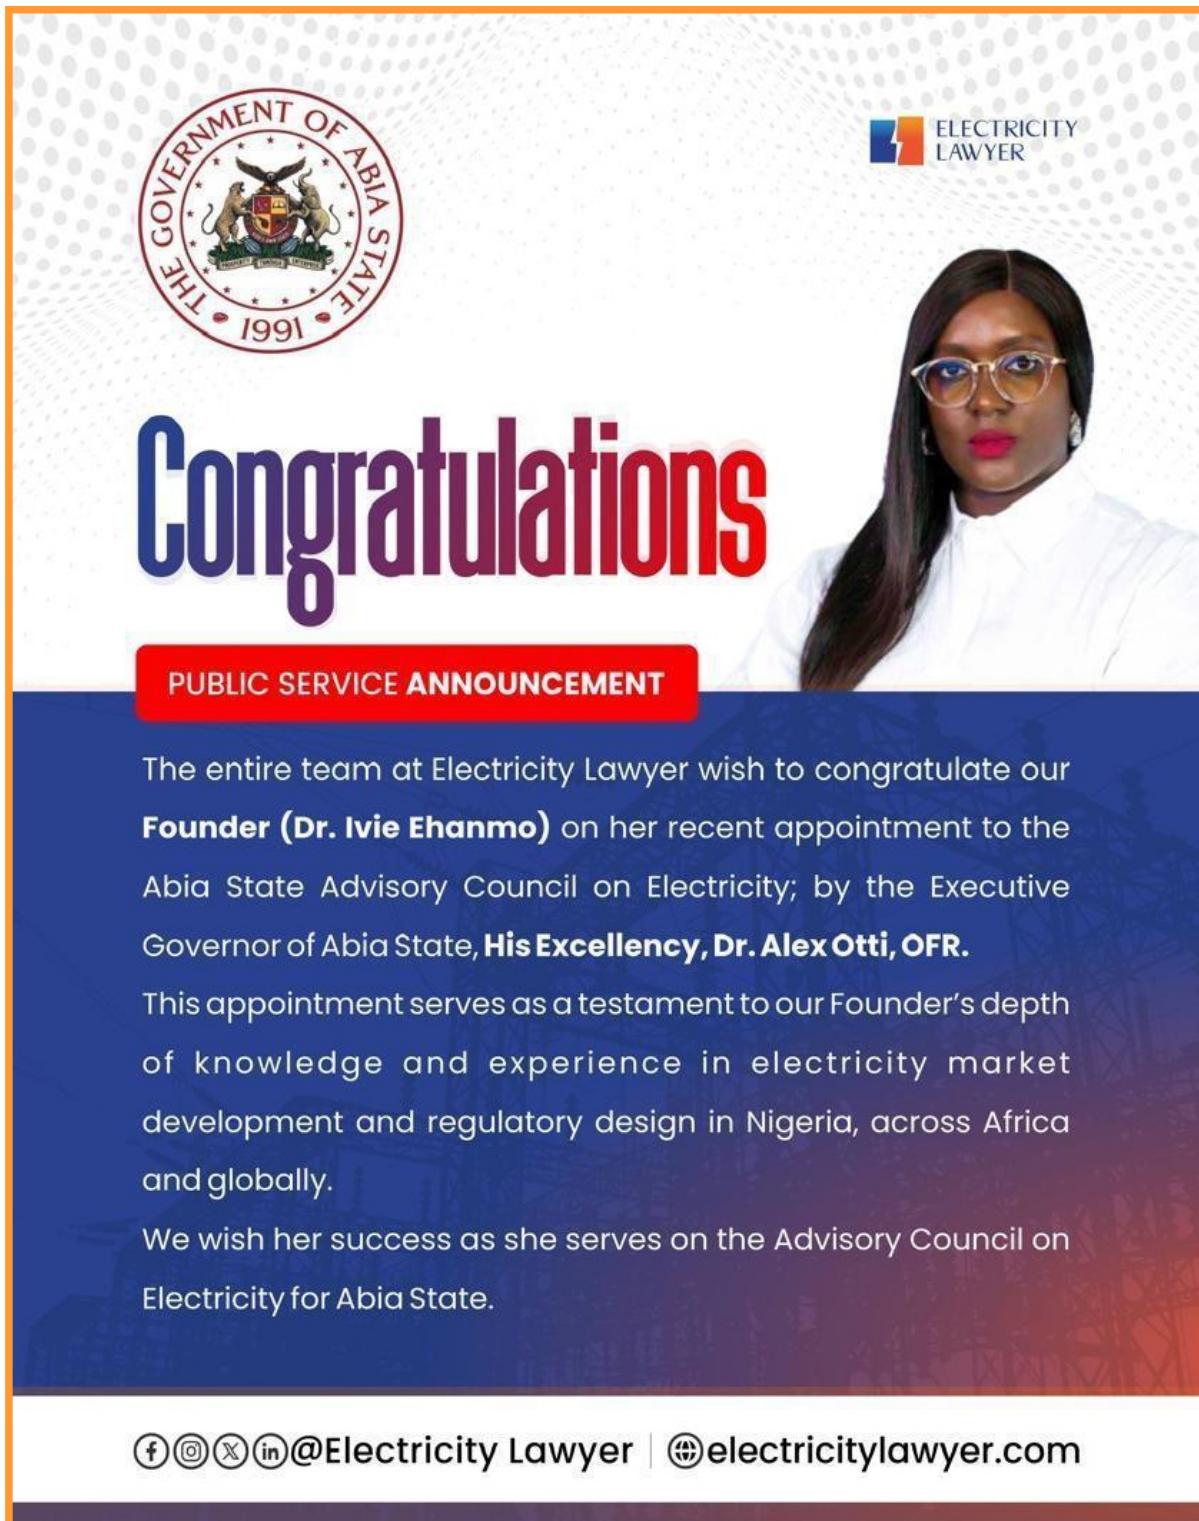

Ivie Ehanmo
Founder, Electricity Lawyer

Our Founder, considering her contributions to the Abia State Electricity Law success, was appointed as an advisory council member.

The image is a public service announcement. It features the circular seal of the Government of Abia State, which includes a crest with a lion and a unicorn flanking a shield, and the text "THE GOVERNMENT OF ABIA STATE" and "1991". In the top right corner is the Electricity Lawyer logo, which consists of a stylized lightning bolt icon followed by the text "ELECTRICITY LAWYER". Below the seal, the word "Congratulations" is written in large, bold, blue and red letters. Underneath this, a red box contains the text "PUBLIC SERVICE ANNOUNCEMENT". The main body of the announcement is in white text on a dark blue background. It reads: "The entire team at Electricity Lawyer wish to congratulate our Founder (Dr. Ivie Ehanmo) on her recent appointment to the Abia State Advisory Council on Electricity; by the Executive Governor of Abia State, His Excellency, Dr. Alex Otti, OFR. This appointment serves as a testament to our Founder's depth of knowledge and experience in electricity market development and regulatory design in Nigeria, across Africa and globally. We wish her success as she serves on the Advisory Council on Electricity for Abia State." At the bottom, there is a white bar with social media icons for Facebook, Instagram, Twitter, and LinkedIn, followed by the text "@Electricity Lawyer | @electricitylawyer.com".
